

The Snowy Mountains - revamped on a new moon!

Novotel Lake Crackenback launches its new look Kosciuszko Alpine Guided Walks with an even more exciting route along the spine of the main range coupled with a equally stunning new campsite location.

Each overnight walk will be scheduled around a full moon offering 6 exclusive experiences throughout the summer season discovering some of Australia's most beautiful mountain terrain.

Over two days, this 22km fully guided tour will take you on a journey across the dramatic vistas of Mount Kosciuszko, Carruthers Peak and Dead Horse Gap surrounded by wild flowers before basking in the unique glacial formations of Blue Lake and Lake Albina. Not only will your guide share with you their amazing knowledge of the area and its many natural wonders but you'll enjoy the convenience and luxury of a pre-prepared and catered campsite. Our campsites offer the best vantage point to witness the kaleidoscope of colours from a Snowy Mountains sunset and sunrise, a privilege only available to few who make the trek to visit this unique environment.

This exceptional experience will be coupled with luxury accommodation in either the resort's 4.5 star Overwater Apartments or 5 star Mountain Views chalets offering a chance to unwind and relax in the comfort of a beautiful mountain setting. Weary walkers can take advantage of the onsite day spa or keep active with the resort's complimentary activities including tennis, golf, canoes and paddle boats, archery, volleyball plus a myriad of picturesque walking and mountain bike trails.

Overnight Walks FROM \$589.00 per person (six share)
