

August 2008

Media Release: Immediate

Guests of Novotel Lake Crackenback Resort will now be given the royal treatment with the opening of its new day spa - The Spa at Lake Crackenback.

The day spa is located adjacent to existing pool and gym facilities featuring 5 treatment rooms each with contemporary furnishings, organic cotton sheets and soft bamboo robes. The spa's full length windows capture the ambience of the mountains taking advantage of the picturesque surrounding environment.

The Spa at Lake Crackenback's philosophy is to draw inspiration from the beauty of the alpine wilderness whilst seeking to provide total luxury through natural purity. The Spa uses only 100% organic products, including the Australian brand Kuush which is not tested on animals, water and preservative free. All products are packaged in plastic free containers to maintain purity so the spa's therapists can provide the best and safest treatment possible.

The spa's signature treatment is the indulgent 24 Carat Gold Facial featuring real gold infused products.

According to spa manager Nicola Johnson, the 24 Carat Gold Facial is luxury and beauty personified. "It's exciting to have the Kuush pure 24 carat gold facial for its natural healing and anti ageing properties. Our gold facial is pure luxury offering a superior result for our clients"

The gold facial is one of a myriad of decadent treatments available including a blissful soak in the luxurious infinity bath, relaxing hot stone massage and clay body wraps plus a selection of tailored & customized spa packages to suit even the most inexperienced spa novice.

To make a booking for the Spa at Lake Crackenback please contact Novotel Lake Crackenback Resort on 02 6451 3000, or to view the full treatment menu please visit our website www.novotellakecrackenback.com.au
